Questions to Cr O'Pray

Submitted 30 January 2017

1. Please update the community on the new runway project. Has council voted to build the new runway and committed to spending \$347m? If so when and did you support this motion and why?
2. What are you, as our representative, going to do for the 987 homes that are materially impacted should the runway be built? The Coordinator Generals report is clear that the proponent (SCC) is to actively engage with those impacted and to mitigate its actions. What are council plans?
3. You have stated that the alignment of the new runway was amended in the 2007 Master Plan. Why was this not communicated particularly to the areas that would be impacted? You also state that the main reason 'was in relation to de-conflicting the public safety zone', what does this mean?
4. Over the past 2 years there has been a never-ending media campaign supporting the new runway, often making false or misleading claims at best. What is the total spend of rate payers funds on media in connection with the new runway/airport over the 2 years and has this cost be charged to the airport accounts, along with the cost of lodging and preparing the EIS/AEIS? If not why?
5. What plans does SCC have for improving parking and traffic flow at Maroochy North Shore and when will they be implemented.
6. The council advertising expenses have increased from \$1m in 2014 to \$1.8m in 2016. Could we please ask for a breakdown of that amount? We would like to see a dissection that includes Maroochydore Centre, Airport expansion, public notices, events, etc.
7. Can you please update us on the rock walling of the mouth of the Maroochy River. What has been decided on 25th of January in regards to this initiative? What is your opinion and why?
